CAREER OBJECTIVE:

Dedicated and skilled Devops and System Administrator with a strong background in local & cloud infrastructure. As a **solution architect certified** seeking a **DevOps** Engineer role to leverage my experience in automation, cloud services, High availability & high security to drive operational efficiency and system reliability.

EXPERIENCE:

System & Devops Engineer – Siliconithub Pvt. Ltd.

Ahmedabad | May 2024 – Present

- Designed and managed **scalable and highly available AWS infrastructure** using EC2, VPC, RDS, S3, ECS, Auto Scaling Groups, Load Balancers, Route 53, SQS, SNS, and CloudWatch services.
- Used **Docker** containerization to application environments and improve deployment consistency across development and staging.
- Built and maintained **CI/CD pipelines** using Jenkins, GitHub Actions, GitLab CI/CD, and AWS CodePipeline, reducing manual release effort by ~40%.
- Designed **high-availability setups** using Auto Scaling, Multi-AZ deployments, and load balancing to improve application reliability.
- Set up **monitoring and alerts** using AWS CloudWatch and Grafana to track performance and respond to issues quickly.
- Managed **domains, DNS, hosting, and email services** for multiple environments using Hostinger, Bluehost, and GoDaddy.
- Handled **network security and server administration**, including Sophos Firewall, endpoint protection, IIS and Apache/Nginx servers, backups, and migrations.

System Administrator – Capermint Technologies Pvt. Ltd.

Ahmedabad | Oct 2022 – May 2024

- Managed **AWS infrastructure** including EC2, VPCs, IAM, and CodeCommit for development and production environments.
- Automated application deployments using **CI/CD pipelines** with Jenkins and GitHub, improving deployment consistency and reducing manual effort.
- Implemented **Docker containerization** to standardize application environments across development and production.
- Configured and maintained **Apache and Nginx web servers**, including domains, DNS records, and hosting across A2 Hosting, MilesWeb, and GoDaddy
- Ensured **network security** by configuring Sophos Firewall and managing server endpoint protection.

System Administrator – Ace Infoway Pvt. Ltd.

Ahmedabad | Dec 2020 – Sep 2023

- Managed internal mail server, NAS, and OS-ticket support system.
- Performed daily data backups and Dropbox sync.
- Maintained hardware/software inventory and user account configurations.
- Provided remote and on-site troubleshooting for IT issues across platforms.

Retainer Engineer – Gujarat Cancer & Research Institute (Aforeserve.com Ltd.)

Ahmedabad | Jun 2020 – Dec 2020

- Managed Active Directory, DHCP, and remote support for users.
- Configured desktops, laptops, printers, and network infrastructure.

System Engineer – Areco Consulting & Engineering (India) Pvt. Ltd.

Ahmedabad | Aug 2018 – Jun 2020

- Maintained IT infrastructure, backups, and performed troubleshooting.
- Created and launched the company website (www.areco.in).
